GAP FUNDING

We are committed for providing our services to the patients with the highest quality care possible, regardless of their ability to pay. However, there are times when we need additional funding to cover the cost of care. This is where Gap Funding comes into play. Gap funding helps us to bridge the gap between the cost of care and what our patients are able to pay.

If you are interested in making a donation to help us to bridge the gap please visit our website: www.swamivivekanandmedicalmission.org, or call us at: ☎ 72620 42046

We thank you in anticipation of your support!

“Together, we can create a healthier community”

AFFORDABLE RELIABLE STATE-OF-THE-ART TREATMENT SINCE 1974

HOSPITAL | NURSING SCHOOL | COMMUNITY HEALTH | SUB CENTRE | HEALTH CAMPS

ABOUT US

- SVMM is a charitable organization
- It was started in make-shift clinic in a “Gaushala” (cow-shed) In 1974
- SVMM offers affordable & quality treatment for all sections of the society
- The institution functions on no-profit no-loss basis. Infrastructure and equipment largely supported by donation from the general public and philanthropists from across country
- We serve through our hundred-bed multi-speciality hospital with super-speciality wings, Nursing School, Sub Centre, Community Health, and Health Camps
- Our services are available free for the underprivileged
- We serve rural and urban population from Central India & have served more than 20 Lac patients till date

“We believe in the power of healthcare to change lives”

VISION

To drive nation forward by building the highest level of material and spiritual prosperity; prioritizing health care of the society by making state-of-the-art medical facilities & treatment accessible to economically weak section of society; following the principle of “Shiv Bhava Jeev Sewa” i.e. “Serving Human Being As God” as professed by Swami Vivekanand.

MISSION

To develop an all-equipped multi-disciplinary medical centre & sub centres to facilitate and make essential services related to health like Diagnosis, Treatment, Research, Medicine, and Training accessible to the section coming from economically weak backgrounds. To conduct Health Awareness Programs in the society at regular intervals.

“Everyone deserves access to quality healthcare”

WORLD-CLASS TECHNOLOGY

At SVMM, we are committed to providing our patients with the best possible care. That's why we invest in the latest and most advanced medical technology. Technology enables us to diagnose and treat patients' condition with utmost precision.

We have a state-of-the-art, well equipped cath-lab. It empowers us to perform a wide range of procedures, with greater precision and accuracy leading to better outcomes for patients.

We are equipped with latest equipment like ventilators (Neonatal to Adult), High end anaesthesia workstations, high definition monitors, operating microscopes, drilling equipment, dialysis, echo machine with neonatal trans esophageal probe, HD laparoscopy surgery set etc.

Our Multi Slice CT Scan which can deliver outstanding three dimensional images of the patient's body.

Our Pathology laboratory uses the latest technology enabling us to test patients' blood, urine and other samples quickly & accurately. Accurate reports help us to diagnose condition as well as monitor their progress during treatment with precision.

We thus ensure that patients receive the best possible care in best environment under highly skilled team of professionals.

"Talk to yourself once in a day, otherwise you may miss meeting an intelligent person in this world."

OUR SUPER SPECIALITY SERVICES & FACILITIES

- Cardiology
- Cardio Thoracic Surgery
- Pediatric Cardiac Surgery
- Pediatric Cardiology
- Urology
- Plastic Surgery
- Neurology
- Neuro & Spine Surgery
- Interventional Radiology
- Gastro Enterology
- GI Surgery
- Onco Surgery
- Joint Replacement Surgery

KEY FEATURES OF SVMM'S 100 BEDDED HOSPITAL

- Cathlab, Recovery and ICCU
- X-ray
- Ultrasound
- Color Doppler
- Pathology
- Pharmacy
- Physiotherapy Unit
- Mess
- Ambulances
- Whole Body Multi Slice CT Scan
- Dialysis Unit
- Minimal Invasive Surgeries
- 24 x 7 working Emergency Service Unit
- Operation Theater With Laminar Flow
- ICU with Ventilators and Monitoring Devices.
- General Wards and Special Rooms
- Regular Health Check Camps

HEART CENTRE

The incidence of Adult Heart Disease is on the rise worldwide; India being no exception

SVMM HEART CENTER FACILITIES

The objective behind setting up Heart Centre has been to provide diagnosis, treatment, monitoring & management of cardiology conditions, and offer complete treatment from diagnostic testing to the research-based treatment plan for every patient based on his/her health & financial condition.

To achieve the same, we have set up 24 bed heart centre with the following units:

- Cath-lab for Angiography, Angioplasty and Pediatric Cardiac Procedures
- Modular Cardiac Operation Theater (Adult & Pediatric)
- Adult Recovery Unit
- Pediatric Recovery Unit
- ICCU
- End-to-end OPD Services
- Diagnostic services (ECG/ECHO/TMT/Blood investigations)
- Physiotherapy, Preventive Cardiology, Diet & Diabetic Care unit, Yoga & Meditation
- Pathology & other Radiology Services backup facility
- Heart Health Related Awareness Campaigns
- Planned investigation for diagnosed BP & Diabetic patients

HEART OPD

"They alone live, who live for others."

PEDIATRIC HEART SURGERY

Prevalence of Paediatric heart diseases is about 19.14 per 1000 individuals. Majority (58%) of patients are diagnosed between 0-5 years of age. Many children born with minor or major heart defects are in need of immediate medical attention. Patients in the lower & middle-income groups cannot afford high COST of these treatments.

Paediatric heart problems include holes (defects) or connection issues and are difficult to diagnose before birth. Some manifest in later life.

Mixing of blood causes deficient supply of oxygenated blood. They have varied and complex presentation and cause significant mortality and morbidity if not treated on time.

Surgery is often the option in many conditions.

This requires a highly specialised team of doctors and support staff.

The costs of these surgeries are often out of reach for the lower and middle class population.

At SVMM most of the surgeries are performed free of cost with support from society.

WE ARE DEVELOPING INTO A MAJOR CENTRE FOR PEDIATRIC HEART SURGERY IN CENTRAL INDIA.

"Arise! Awake! and stop not until the goal is reached."

NURSING SCHOOL

PREFERABLY RURAL AND TRIBAL GIRLS ARE ADMITTED

Our nursing students receive the highest quality education, and awarded the opportunity to learn from some of the best doctors and nurses

- rANM- 2 year course
- Recognized by MNC
- 20 Admission Per Year
- Eligibility 12th Pass
- Library
- Experienced Staff
- Positive Environment
- Hostel, Mess facility

BUTIBORI SUB-CENTER

50+ Villages | 75 K+ Population | OPD | Day Care | Specialist Services

“We are dedicated to making healthcare more accessible and affordable”

SOCIAL PROJECTS & HEALTHCARE PROGRAMS

- Rural Health worker training and health education
- Health education and prevention work in 25 remote villages
- Cataract surgery
- Squint surgery for school going children
- Matrutva Yog Therapy
- Health camps- general/speciality

GREEN INITIATIVES

- Solar power project -110 Kw
- STP
- Recycling of treated water
- Solar water heater
- ETP
- Ground water recharging

“We are here to help you live your best life”

NEW BUILDING

- The existing hospital is spread across three buildings in the area approx. 30000 sq ft. Our existing facilities of OPD areas, Radiology and pathology labs, general wards, post operative recovery Units are not sufficient for the increasing number of patients seeking medical attention.
- The heart centre work is picking up fast. We are performing 25+ heart surgeries in a month.
- There is need to increase the scope of our services to more super specialities like neurosciences, transplant, fertility services, endocrinology, diabetology etc.
- As the scope of government schemes is getting wider the number of beneficiaries from the such Scheme are also rising.
- The existing buildings are more than 35 years old and cannot have more floors due to structural design constraints.
- Therefore there is a pressing need for comprehensive well planned new building that can accommodate all facilities under one roof. The building with more number of wards, operations theaters and ICU's along with other services will help us serve better.
- We have vacant land on our plot and we plan to construct the building with current requirements of hospital standards.
- **Required construction approx 2,00,000 sq ft with Double basement, ground + nine floors with 200+ Beds, Operation Theatre Complex, 4 ICU's, NICU, PICU, Transplant OT, MRI, Blood Bank, Microbiology etc.**

"You cannot believe in God until you believe in yourself."

SERVE POOR AS GOD

SVMM is registered charitable trust and does not receive any government funding. Swami Vivekanand Medical Mission is providing affordable Health Care facility to the economically weaker section of the society, since five decades. Quality of service is not compromised to make it affordable. So to make both ends meet we need financial aid and support from donors like you. Please extend your valuable support and participate in the noble cause. Your contribution can improve quality of life as well as give life to the poor.

How to donate

You may donate online **via Razor Pay**. The link is given below
